

Bug Report

User	problem_user
Date	
Total Test Failures	150
Root Cause Bugs	6

BUG-001 All product images show the same broken placeholder image

Bug ID	BUG-001
Page	Inventory Page
User	problem_user
Severity / Priority	High / High
Reproducibility	6 of 6 products
Steps to Reproduce	1. Log in as problem_user 2. View the inventory page 3. Look at the image for each of the 6 products
Expected Result	Each product shows its own correct image
Actual Result	All 6 products display the same broken placeholder image (sl-404-Cq1a9k9X.jpg) instead of their correct product images
Failing Tests (6)	• test_inventory.py :: test_product_image_src[problem_user-sauce-labs-backpack] • test_inventory.py :: test_product_image_src[problem_user-sauce-labs-bike-light] • test_inventory.py :: test_product_image_src[problem_user-sauce-labs-bolt-t-shirt] • test_inventory.py :: test_product_image_src[problem_user-sauce-labs-fleece-jacket] • test_inventory.py :: test_product_image_src[problem_user-sauce-labs-onesie] • test_inventory.py :: test_product_image_src[problem_user-test.allthethings()-t-shirt-(red)]

BUG-002 Add to Cart button does not work for 3 of the 6 products

Bug ID	BUG-002
Page	Inventory Page, Cart Page
User	problem_user
Severity / Priority	Critical / Critical
Reproducibility	3 of 6 products — Sauce Labs Bolt T-Shirt, Sauce Labs Fleece Jacket, Test.allTheThings() T-Shirt (Red)
Steps to Reproduce	1. Log in as problem_user 2. Click Add to cart for Sauce Labs Bolt T-Shirt 3. Observe the cart badge count and the button text 4. Repeat for Sauce Labs Fleece Jacket and Test.allTheThings() T-Shirt (Red)
Expected Result	Cart badge increments by 1 and button text changes to Remove. Items appear correctly in the cart page.
Actual Result	Cart badge stays at 0 and button stays as Add to cart. The item is never added, so the cart page shows nothing for those 3 products.
Failing Tests (17)	• test_inventory.py :: test_add_product[problem_user-sauce-labs-bolt-t-shirt] • test_inventory.py :: test_add_product[problem_user-sauce-labs-fleece-jacket] • test_inventory.py :: test_add_product[problem_user-test.allthethings()-t-shirt-(red)] • test_inventory.py :: test_add_three_items[problem_user] • test_inventory.py :: test_add_all_six_items[problem_user] • test_cart.py :: test_item_name / test_item_price / test_item_description [bolt, fleece, red] — 9 tests • test_cart.py :: test_remove_on_cart_page empties_cart [bolt, fleece, red] — 3 tests
Status	Open

BUG-003 Remove button cannot be found on the Inventory Page after adding any product

Bug ID	BUG-003
Page	Inventory Page
User	problem_user
Severity / Priority	Critical / Critical
Reproducibility	6 of 6 products
Steps to Reproduce	1. Log in as problem_user 2. Click Add to cart for Sauce Labs Backpack 3. Try to click the Remove button for the same product
Expected Result	A Remove button appears after adding a product and clicking it removes the item from the cart
Actual Result	The Remove button element (ID: remove-{product}) cannot be found on the page at all. Selenium throws NoSuchElementException before any assertion is reached. The test never gets to check the badge count or button text.
Failing Tests (7)	• test_inventory.py :: test_remove_product[problem_user-sauce-labs-backpack] • test_inventory.py :: test_remove_product[problem_user-sauce-labs-bike-light] • test_inventory.py :: test_remove_product[problem_user-sauce-labs-bolt-t-shirt] • test_inventory.py :: test_remove_product[problem_user-sauce-labs-fleece-jacket] • test_inventory.py :: test_remove_product[problem_user-sauce-labs-onesie] • test_inventory.py :: test_remove_product[problem_user-test.allthethings()-t-shirt-(red)] • test_inventory.py :: test_add_two_remove_one[problem_user]

BUG-004 Sorting does not reorder products

Bug ID	BUG-004
Page	Inventory Page
User	problem_user
Severity / Priority	High / High
Reproducibility	3 of 3 non-default sort options
Steps to Reproduce	1. Log in as problem_user 2. Open the sort dropdown and select Name (Z to A) 3. Observe the order of the first and last products 4. Repeat for Price (low to high) and Price (high to low)
Expected Result	Products reorder to match the chosen sort option and the dropdown label updates
Actual Result	Products remain in the default Name (A to Z) order regardless of which sort option is chosen. The dropdown label also does not update.
Failing Tests (9)	• test_inventory.py :: test_first_item_is_correct[problem_user-za / lohi / hilo] — 3 tests • test_inventory.py :: test_last_item_is_correct[problem_user-za / lohi / hilo] — 3 tests • test_inventory.py :: test_selected_label_shows_after_choosing[problem_user-za / lohi / hilo] — 3 tests
Status	Open

BUG-005 Product detail page elements are not found for any product

Bug ID	BUG-005
Page	Product Detail Page
User	problem_user
Severity / Priority	High / High
Reproducibility	6 of 6 products, both name click and image click
Steps to Reproduce	1. Log in as problem_user 2. Click on any product name or image (e.g., Test.allTheThings() T-Shirt Red) 3. Observe the name, image, description and price on the detail page
Expected Result	Detail page loads and shows the correct name, image, description and price for the selected product
Actual Result	The detail page element structure is missing for problem_user. Selenium cannot find the name, price, description or image elements (NoSuchElementException). The test fails before any value comparison is made.
Failing Tests (47)	• test_product_detail.py :: test_detail_name / description / price / image_src / image_alt [all 6 products] — 30 tests • test_product_detail.py :: test_open_by_clicking_image [all 6 products] — 6 tests • test_product_detail.py :: test_add_from_detail [3 products] — 3 tests • test_product_detail.py :: test_remove_from_detail [all 6 products] — 6 tests • test_product_detail.py :: test_badge_updates_on_detail_page_after_add[problem_user] • test_product_detail.py :: test_button_shows_remove_after_adding_on_inventory[problem_user]

BUG-006 Checkout is completely blocked — Last Name field routes keystrokes to First Name field

Bug ID	BUG-006
Page	Checkout Step One Page, Checkout Overview Page, Checkout Complete Page
User	problem_user
Severity / Priority	Critical / Critical
Reproducibility	64 of 84 checkout test attempts
Steps to Reproduce	1. Log in as problem_user 2. Add a product to the cart and go to checkout 3. Type a value into the Last Name field 4. Click elsewhere and observe the Last Name field value 5. Fill all fields and click Continue
Expected Result	Last Name field retains what was typed. Filling all fields and clicking Continue navigates to the Checkout Overview page.
Actual Result	Keystrokes typed into the Last Name field are routed to the First Name field instead. Last Name stays empty. When Continue is clicked, the form shows a Last Name validation error and stays on Step One. The Checkout Overview page is never reached, so all overview, complete, end-to-end, and validation tests fail as a cascade.

Failing Tests (64)	• test_checkout.py :: test_all_fields_filled_goes_to_overview[problem_user] • test_checkout.py :: test_first_name_missing_error[problem_user] • test_checkout.py :: test_first_and_zip_missing_error[problem_user] • test_checkout.py :: test_zip_missing_error[problem_user] • test_checkout.py :: test_whitespace_only_first_name_observe[problem_user] • test_checkout.py :: test_very_long_input_accepted[problem_user] • test_checkout.py :: test_special_characters_in_names_accepted[problem_user] • test_checkout.py :: test_letters_in_zip_accepted[problem_user] • test_checkout.py :: test_numbers_in_names_accepted[problem_user] • test_checkout.py :: test_field_keeps_what_was_typed[problem_user-last_name] • test_checkout.py :: test_overview_item_name [all 6 products] — 6 tests • test_checkout.py :: test_overview_item_price [all 6 products] — 6 tests • test_checkout.py :: test_overview_item_total [all 6 products] — 6 tests • test_checkout.py :: test_overview_total [all 6 products] — 6 tests • test_checkout.py :: test_overview_tax [all 6 products] — 6 tests • test_checkout.py :: test_overview_totals_two_items / totals_all_six_items / title / description / quantity — 5 tests • test_checkout.py :: test_overview_payment_info_label / payment_value / shipping_info_label / shipping_value — 4 tests • test_checkout.py :: test_overview_cancel_returns_to_inventory / overview_finish_completes_order — 2 tests • test_checkout.py :: test_complete_title / url / thank_you_message / dispatched_subtext / pony_express_image_src — 5 tests • test_checkout.py :: test_complete_back_home_returns_to_inventory / badge_cleared / cart_empty_after_back_home — 3 tests • test_end_to_end.py :: test_happy_path_end_to_end / checkout_with_three_items / cancel_at_step_one — 3 tests • test_header_footer.py :: test_header_logo_checkout_complete / footer_copyright_checkout_complete — 2 tests
